In this tutorial, students will complete the following referencing and quoting exercise for 10 marks, which you will take in at the end of the tutorial.

**Exercise:** Write the following prompts on the board:

1. What do you understand by the term plagiarism?
2. List four different ways of plagiarizing.

Using 2 different texts (which must be different types of sources, i.e. book, journal article, online article, etc.) from either of the reading packs, complete the following:

3. State the central theme of this text in one sentence.
4. Write out a quote from the text and an in-text citation.
5. Write out the bibliography entry for both of the texts.

**Marking guidelines for referencing exercise:**

Each question is worth 2 points each.

In addition to the marks, please provide feedback on both the content and form of your students' writing. Specifically, please correct and explain errors in referencing as thoroughly as possible.
