Decide on your search terms

- We are going to run a search on using **honey** for wound healing
  - Our search terms are therefore
    - Honey
    - Wound
    - Healing
Enter terms in Basic Search Mode. This is the default setting (Note: omit operators, tags and punctuation).

CINAHL supplies operators automatically. This is the default setting.

Full Text is the default setting at Wits, so you can obtain the full articles in your results.

Enter the date range for your search. We want only recent articles from the last two years, so we enter 2010 to 2012.

Click on Search when you have set your search parameters.
We found 5 articles from 2010 - 2012 on our topic.
