Agreements
By accessing the data, you give assurance that

The data and documentation will not be duplicated, redistributed or sold without prior approval from the HSRC;
The data will be used for statistical and scientific research purposes only and no attempt will be made to obtain or derive information relating specifically to identifiable individuals/organisations;
The HSRC will be informed of any books, articles, conference papers, theses, reports or other publications resulting from work based in whole or in part on the data and documentation;
The HSRC will be acknowledged in all published and unpublished works based on the data according to the citation as stated in the study information file or the web page metadata field, citation;
For archiving and bibliographic purposes an electronic copy of all reports and publications based on the requested data will be sent to the HSRC;
The collector of the data, the HSRC, and the relevant funding agencies bear no responsibility for use of the data or for interpretations or inferences based upon such uses;

Failure to comply with the above is considered infringement of the intellectual property rights of the HSRC.

Ethics
The data and documentation will not be duplicated, redistributed or sold without prior approval from the HSRC;

- The confidentiality of individuals/organisations in the data will be preserved at all times and that no attempt will be made to obtain or derive information relating specifically to identifiable individuals/organisations;
- The HSRC will be informed of any books, articles, conference papers, theses, dissertations, reports or other publications resulting from work based in whole or in part on the data and acknowledged in all published and unpublished works based on the data according to the citation as stated in the study information file or the web page metadata;
- An electronic copy of all reports and publications based on the requested data will be sent to the HSRC;
- The collector of the data, the HSRC, and the relevant funding agencies bear no responsibility for use of the data or for interpretations or inferences based upon such uses;
- By retrieval of the data you signify your agreement to comply with the above-stated terms and conditions and give your assurance that the use of statistical data obtained from the HSRC complies with the standards of practice and legal restrictions that are intended to protect the confidentiality of respondents.

Failure to comply with the above is considered infringement of the intellectual property rights of the HSRC.
The data will be used for statistical and scientific research purposes only and the confidentiality of the respondents will be maintained. No attempt will be made to obtain or derive information relating specifically to identifiable individuals/organisations and documentation.

The HSRC will be informed of any books, articles, conference papers, theses, dissertations, reports or other publications resulting from work based in whole or in part on the data and documentation.

The HSRC will be acknowledged in all published and unpublished works based on the data according to the citation as stated in the study information file or the web page metadata field, citation.

By retrieval of the data you signify your agreement to comply with the above-stated terms and conditions and give your consent to the HSRC's use of the data in accordance with the study objectives.

The HSRC will conform to widely-accepted standards of practice and legal restrictions that are intended to protect the confidentiality of respondents.
sations;

protect the confidentiality of respondents.
